

Post Harvesting Equipment for Table Grapes

the
reliable
solution

Suitable for the processing and packaging of table grapes and also for strawberries, blueberries, cluster tomatoes, cherry tomatoes, peppers, eggplants, zucchini, cucumbers, cherries, asparagus and other similar fruits & vegetables.

Technical Features:

- Belt elevator for full crates feeding of the line
- Free roller conveyor for full crates transport to the packers
- Conveyor belts for packed carton boxes transport and for ready punnets
- Stainless steel packaging tables in both sides of the line
- Electronic weigh scales in every working place
- Conveyor belts for waste and 2nd quality products
- Air chain conveyors or free roller conveyors for empty boxes supply to the packers
- Top lighting systems for helping packers in products sorting and packing
- The line can be constructed for different number of Working Places (6+6, 12+12 etc.)
- Optional installation of automatic Labeling Systems, Check Weigher, Weight Control Systems and Automatic Packaging Machines (Flow Pack, Punnets Netting)

Our technical team can propose different solutions according to the various requirements of our customers.
