

HORIZONTAL SEALING MACHINE FOR PACKING HARD ROOTS & VEGETABLES INTO PE BAGS Mod. AP & APF

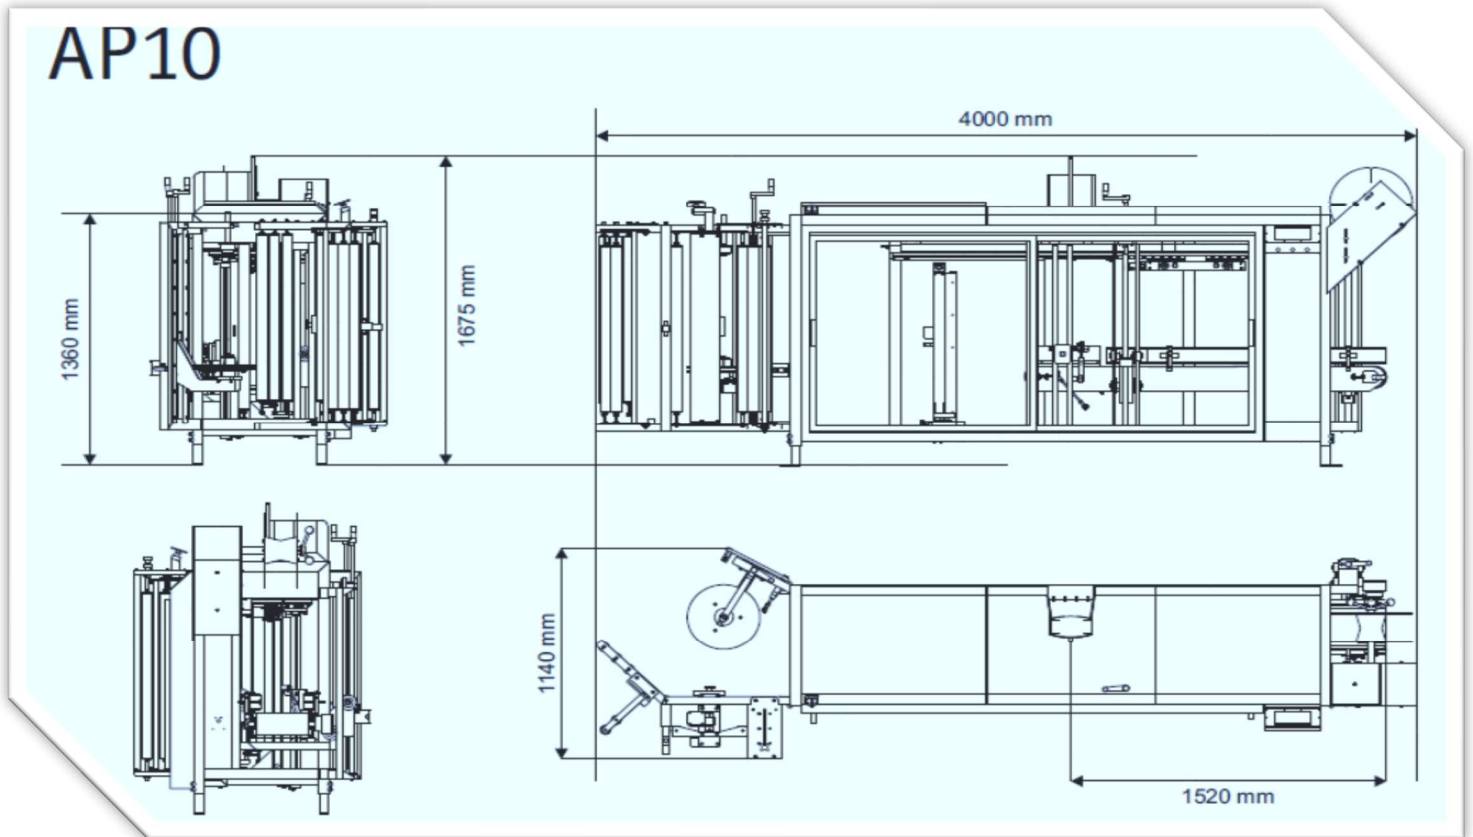

The Horizontal Sealing Machine is ideal for packing hard vegetables or loose products into PE Bags on reel. Ideal for products such as carrots, potatoes, onions etc. Two different types, for Premade PE Bags (AP Models) & Centre-Fold / Half Tube Film (APF Models)

Machine is manufactured completely from stainless steel and apart from usual cleaning it is practically maintenance free. When used frequently some moving or drive parts may wear which are designed for quick and inexpensive replacing.

Type of machine (models)			
AP:	Packing into Premade Bags on rolls		
	AP5: 1 – 5 kg	AP10: 1 – 10 kg	
APF:	Packing into Centre-Fold Film on rolls
